Aiding the enemy!

YOU DO not feed or give money to your enemy.

This is the reason President Carter has cut back on grain shipments to Russia.

This is also the reason no one in Clearwater should pay money to attend the proposed Chick Corea musical concert.

The proceeds allegedly would go for a study to determine where best to build a luxury hotel downtown.

Behind all of this are the Scientologists. They have formed a group, "New Clearwater for the '80s," to re-develop the downtown area.

The organization is simply a smoke screen. It is part of the Scientologists' new "nice guy" approach to doing business in Clearwater. The cult's hierarchy has decided that honey draws more flies than

gail.

ALTHOUGH IT may be asking a lot for downtown merchants to reject Scientology students as customers in their stores, we are saddened by the fact that a few proprietors are apparently serving on the advisory board of the New Clearwater group.

How many times must it be spelled out? Scientology is the enemy of Clearwater:

Anyone who cooperates with the group is aiding and abetting a group that is founded on deceit.

Downtown Clearwater does not need a new planning group, Chick Corea, a new study or Scientologists. If the Scientologists want to improve the city, they should move away.

It is as simple as that.
