Dear friend,

You may or may not know this, but the attack on the Church in Spain which resulted in the outrageous actions taken against our President, Heber Jentzsch, was fueled and orchestrated by Interpol.

Interpol is a private police agency of shady history. Originally run by the Nazis during World War II, it later regrouped with the same cast and files. As late as 1972 the Church of Scientology exposed the then International President of Interpol to be a former Nazi SS Officer.

Interpol is not subject to control by government as it is a private body. But get this: it is staffed and funded by its member governments. The US bureau is situated in the Department of Justice in Washington, DC - where its staff have access to nearly all US government files of the FBI and IRS.

Any information gotten from these files can then be used by any other member country such as Libya, Iran or Cuba!

And these guys have files on us, the Church. And they won't reveal what is in them, in violation of the Freedom of Information Act. But they are using them to spread third party and trouble for us in European countries like Italy and Spain.

So, on the 6th February 1989, the Church filed a suit against Interpol demanding immediate release of their files on us.

The Office of Public Affairs here in Washington, DC, is using its comm lines to Congress and the media to ensure the removal of the threat that Interpol poses not only to the freedom of the Church, but any other individual or group in the US.

Those of you who wish to join us, contact me here. Your help is welcome.

Much love,

*Sarah Burrough.*
