Dear Robin,

Dude, I'm late! No, not pregnant  
I have such a backlog of return  
comm. to you, it's downright  
pathetic! Lemme see if I can  
start catching up here and now

Letter from you of 25 May '95 -  
Comment on "bad news" and  
how this relates to the friend hat.  
Thank you! I got it. So now  
that I have the record straight  
about this let me say that in  
P.T. there is no bad news on  
my lines. Except that I have  
3 weeks of backlogged letters  
to you.

Letter of 27 Sept 95

You inquired as regards "The  
world after Clear". I am pleased  
to report the world has a much  
different shadow from the present  
time point of view. This doggone  
star I'm sitting on keeps  
wiggling around underneath me  
though and I have to turn

re adjusting my view on a daily basis. Aside from the few remains of a soon to be gone nuisance, phishes, the world is very bright from where I sit.

What am I up to you ask - a brief summary and details to follow over the phone:

I have 2 selectees now, one a veteran Scientologist who fell off. Another green pea who is an attorney. My next target is recording artist Seal, have you experienced his music?

I am working on cleaning up my 2D. Fun, but no sex in P.T.

I am the Chief Fundraiser for Winter Wonderland 1995, a huge safe painting and PR activity here at Slag each year

Gloria Cruz lives with me and helps with communicator functions

I am in affluence on post and completing conditions at emergency now. I will be back in power by Dec 15. I cleared up my ms on the conditions.

I am on Solo Part I reading Dmsmh: Holy ~~Reading~~ Reading material Ruin! I can't believe what LEH wrote for us in this book! I'm almost to Book III for the first time. I am definitely getting lots of data.

Your confidential memos have been received. I have forwarded a couple of them on and have enjoyed many laughs!

The reason I have not started in Source May is because I am ex-S.O. and am somehow not qualified.

I plan to visit Thanksgiving. I will expect a huge party with lots of presents and food.  
See what can be made on

That catches me and you up  
a bit. I'll write more  
before OT III.

Oh, a cool win I recently  
had. I realized that in this  
game of life it really boils  
down to moving most particles  
(bodies included) and it is  
how well I accomplish that  
which determines my wins.  
Auditing kids the most ~~of me~~  
connected to me as a thetan  
allowing me to be free to  
cause trouble as I do so  
well.

I love you!

Liza
